

STARMEAT IS A DYNAMIC COMPANY

manufacturing high quality meat in the process of mechanical bone removal, commonly named MDOM (1 i 3mm), and Bader-type meat. We own a modern manufacturing line which allows more efficient and faster manufacturing while meeting requirements of all required standards. Thanks to using new technology, our products are very popular among the customers. In our offer you can find products in which we apply only the highest quality raw materials, purchased on domestic market and abroad.

WE MEET EUROPEAN STANDARDS

which enables us selling the products within European Union as well as in other countries. The standards used are certified with appropriate quality certificates. We have introduced the system of critical point controlling HACCP which guarantees stable quality of our product and repeatability.

STARMEAT MEANS EXPERIENCED PERSONNEL

large customer base, modern equipment and very good products. We offer our customers a very good price while maintaining very high quality of our product. Our experience in meat industry exceeds 20 lat.

We invite to cooperation

WE HAVE HACCP CERTIFICATE
