We strongly recommend visiting the Polish Information and Investment Agency - PAIIZ S.A. website.

The Polish Information and Foreign Investment Agency (PAIIZ), helps investors to enter the Polish market and find the best ways to utilise the possibilities available to them. We guide investors through all the essential administrative and legal procedures that involve a project; we also support firms that are already active in Poland. We provide rapid access to the complex information relating to legal and business matters regarding the investments, help in finding the appropriate partners and suppliers, together with new locations.

PAIIZ's mission is also to create a positive image of Poland across the world, promoting Polish goods and services. In order to provide the best possible service to investors we've established a network of Regional Investor Service Centres across Poland whose goal is to improve the quality of regional investor services, ensure access to the latest information - such as, the latest investment offers and to regional micro-economic data. These specialist Bureau's hire professionals trained by PAIIZ and are financed by local authority funds. Another of their task is to work as links between the investors and local authorities.
