Edpol

2019-12-04 11:12:13

Edpol company has been around since 1991.

Over the years we have developed the company by investing primarily in people and in modern infrastructure. Open to the needs of the B2B market, we have expanded the production with new ranges that have enriched our offer (spices, spice mixes, functional mixes, batters, concentrates, soups, sauces, bulk sauces and spices in bags and sweet products).

Currently Edpol has its own manufacturing facility where we make our products.

We specialize in the implementation and creation of complex technological solutions in the scope of development and use of food additives for the meat, fruit and vegetable, fish, bakery, and confectionery industry, as well as extensive group of entrepreneurs from the HoReCa sector.

Our success is based on impeccable cooperation with customers. We are committed to high quality of products and their maximum adaptation to the needs of our customers - we make sure that our products are "custom-made".
